Lead Engineering	[Redacted]@sobis.com>

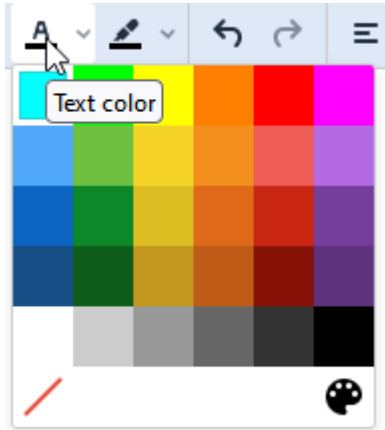

Please review the document by clicking the link above.

Additional workflow recipients are not anymore listed in To but in Copy only.

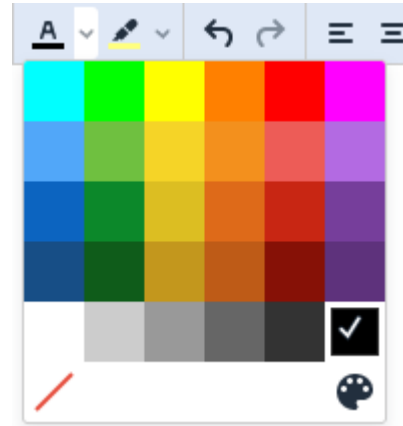

Show different colors for text and background and current selection

New version of editor displays new set of background colors and shows current user selection.

Text Color (old):

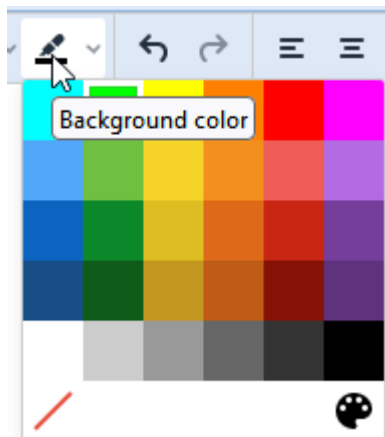

Text Color (new):

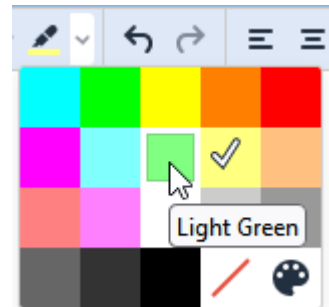

← The tick indicates current selection

Background (old):

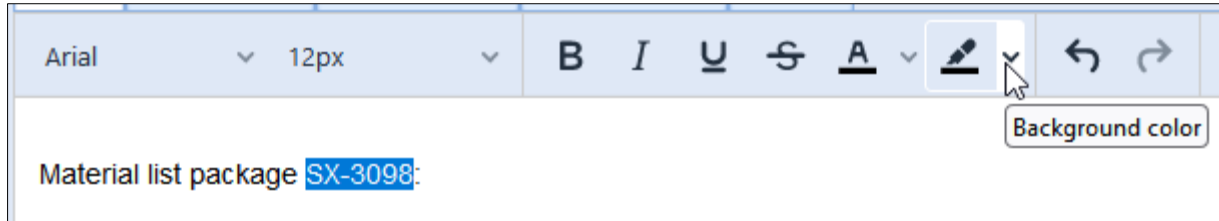

Background (New):

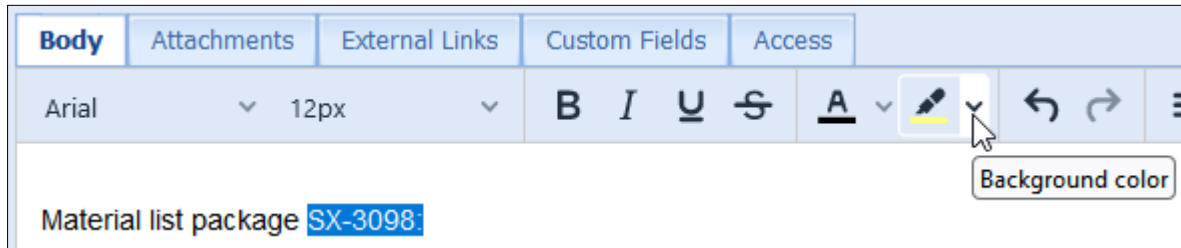

← The tick indicates current selection

Set default background color and foreground color

Before release 3.47 the default background color was always black and could not be customized:

In release 3.47 the default background color is yellow and can be configurized:

Please talk to SOBIS Service Desk if a different default background color needs to be set.

Update Ref.No. on deletion of first recipient
