Introduction of new smart date filter

Page 3 12/07/2024

Smart date filter

The smart date filter is available for all date columns and allows users to filter dynamic for predefined date ranges (i.e. Last 30 days)

Smart date filters may also be saved and published to share important information with the project team.

For example:

- All documents created within the last 7 days
- Documents that must be send within the next 7 days
- Show documents with upcoming workflow due dates

Please contact us if you are interested.

Save and publish smart date filters (Example)

Considerations / Known limitations

(also valid for meta documents):

- No start / reset of workflow is possible
- The mobile UI might not show all information of the Event or Document
