It is possible to create sequential numbers automatically:

- Within a single project (already available)
- Across several projects (NEW)
- Across all projects (NEW)

Please talk to SOBIS to setup this feature.

Create history entry for computed numbers

Subject: EPC/PORTAL/00005 AFS - Workshop Process Definition

Dear all,

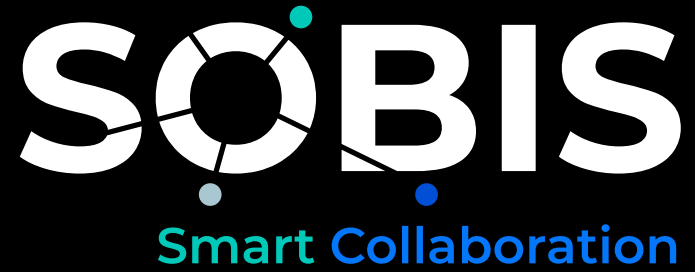

as discussed in our phone call we would like to setup a one day workshop in the beginning of April 2023.

Could you please provide 2-3 dates from your side, so that can clarify the availability with the rest of the team?

Thanks
Silvio

By default PIRS will not anymore add Doclink recipients in the history.

Feature is optional. Please talk to SOBIS if Doclink should remain in your project.

MERCI!

THANK YOU!

VIELEN DANK!

GRAZIE!
