Optimize color selection in Editor

The screenshot shows a rich text editor interface with a color palette open. The text in the editor is as follows:

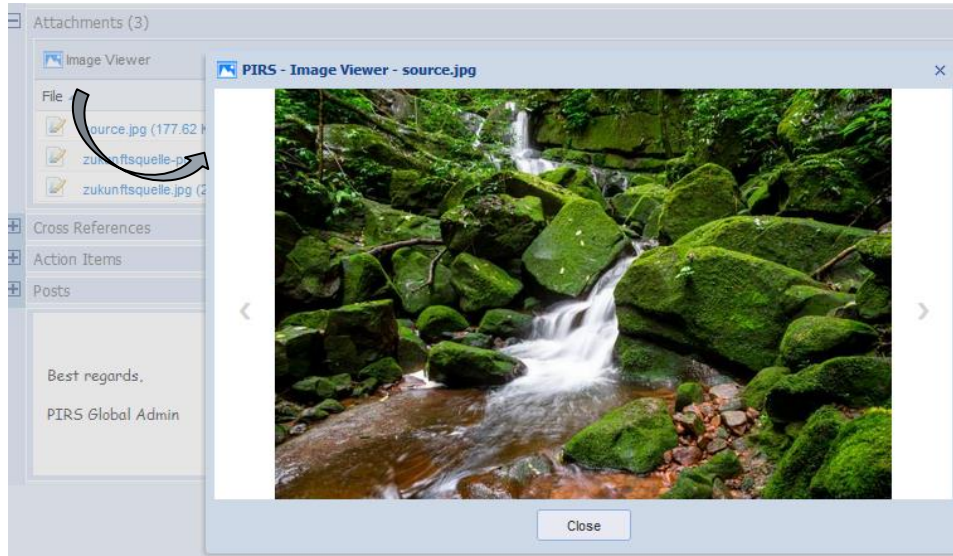

Hi together,
thanks a lot to all of you for the **fruitful** and nice **conve**
We follow up on following **ideas** in the next **3** months:
For our **Students**
Four our **Senior Project Managers**
For **Technical Employees**
For anybody else

The color palette is a 6x6 grid of color swatches. The first row contains cyan, lime green, yellow, orange, red, and magenta. The second row contains light blue, light green, yellow, orange, red, and purple. The third row contains dark blue, dark green, yellow, orange, red, and purple. The fourth row contains dark blue, dark green, yellow, orange, red, and purple. The fifth row contains white, light gray, medium gray, dark gray, and black. The sixth row contains light green, black, a red slash, and a palette icon.

Based on users feedback we have optimized the default colors provided in the editor

New Image Viewer

- » In case of attached pictures a new Image Viewer is displayed
- » Allows a quick and handy preview of all pictures
- » Works for common image types like: jpg, png, jpeg...

File Viewer Improvements

- » **New option that allows Editors to delete Annotations from others**
- » **New option that allows readers to add Annotations**
- » **Talk to SOBIS Service Desk for details**
